

**GOVERNMENT OF PAKISTAN  
REVENUE DIVISION  
CENTRAL BOARD OF REVENUE**

\*\*\*\*\*

C. No. 2(4)/Tar II/97

Islamabad, the 10th December, 1999

**CUSTOMS GENERAL ORDER NO. 51/99**

**Subject :- ASSESSMENT OF CUSTOMS DUTY UNDER H.S. CODE 7217.3010 ON IMPORT OF BEAD WIRE**

A question has arisen as to what type of bead wire is used in the manufacture of auto-tyres, for the purpose of classification under PCT heading 7217.3010. The issue has been examined in consultation with the Association of Auto-tyre Manufacturers Karachi, it has been observed that the bead wire of diameter 0.95 mm and 0.96 mm with marginal variation of  $\pm 0.02$  to 0.05 mm are mainly used in the manufacture of auto-tyres. In order to maintain uniformity, the bead wire having diameter ranging between 0.90 mm to 1.00 mm could be treated as bead wire of a kind used in the manufacture of auto-tyres of PCT heading 7217.3010.

2. The Board is, therefore, pleased to rule that the Bead wire having diameter ranging between 0.90 mm to 1.00 mm, shall be treated as bead wire of a kind used for auto-tyres and assessed under PCT heading 7217.3010
