GOVERNMENT OF PAKISTAN
CABINET DIVISION, CABINET SECRETARIAT
NATIONAL TELECOM & INFORMATION TECHNOLOGY SECURITY BOARD
(NTISB)

No. 1-5/2003(NTISB-II)

Islamabad 29 September, 2021

Subject:- Cyber Security Advisory - Secure Hosting of Govt Websites/ Portals (Advisory No. 64)

1. Websites / portals of public sector including government ministries and departments provide valuable information for general public. During a recent survey, it has been observed that majority of government ministries / department's websites (few mentioned at **Annexure A**) do not comply basic standard of Cyber Security (use of insecure protocol HTTP instead of HTTPS) rendering websites vulnerable to Cyber-attacks. Secure website services cost a very little monetary expenditures (Rs - 2500 / 5000 for 1x domain / year), therefore, spending a small sum can provide enhanced security features to websites.
2. To further augment the security, a stringent security mechanism (details at **Annexure B**) such as fixing security loopholes before the website is **publically accessible** and **periodic screening of websites** for known vulnerabilities & their patching may also be ensured by concerned ministry / department in collaboration of hosting ISP.
3. Foregoing above in view, it is requested to approach all provincial / federal ministries and departments to protect their websites by ensuring secure hosting. Secure website hosting guidelines are attached at **Annexure B** for compliance by all concerned.
4. Forwarded for information / dissemination to all concerned, please.

Major
(Ch Usman Firdous)
Assistant Secretary - II (NTISB)
Ph# 051-9204560

All Secretaries of Ministries / Divisions of Federal Government and Chief Secretaries of Provincial Governments.

Copy to: -

1. Secretary to the Prime Minister, Prime Minister Secretariat, Islamabad
2. Secretary to the President, Aiwan-e-Sadar, Islamabad
3. Cabinet Secretary, Cabinet Division, Islamabad
4. Additional Secretary-III, Cabinet Division, Islamabad
5. Director General (Tech), Dte Gen, ISI Islamabad
6. Director (IT), Cabinet Division, Islamabad

- 681
- (7) Regularly update antimalware solutions running on endpoints in enterprise environment as well as standalone systems.
 - (8) Educate endusers regarding cyber security best practices and antimalware measures.

b. For End-users

- (1) Regularly update antiviruses such as Kaspersky, Avira, Avast etc. and scan system regularly.
 - (2) Do not download attachments from emails or websites unless it is received from trusted source.
-
- (3) Avoid downloading softwares from untrusted websites or torrents.
 - (4) Use Chrome / Firefox for browsing internet instead of Internet Explorer.
 - (5) Make sure that web browser is up-to-date and no plugins other than Adblock or Adblock Plus is enabled.

4. Reporting of Suspicious Files / Emails. Any malicious activity may be reported to this organization on the following email address for analysis and suggesting mitigation measures: -

asntish2@cabinet.gov.pk

5. Forwarded for perusal and dissemination of information to all concerned and under command, please.

Important note:- The above mentioned websites are only given as examples. Scope of securing website is not limited to this table and equally applies to all website stakeholders weather mentioned or not.

CYBER SECURITY BEST PRACTICES FOR WEBSITES

1. **Upgrade OS and webserver** to latest version.
2. Website **admin panel** should only be accessible via **white-listed IPs**.
3. Vulnerability Assessment and penetration testing of application be carried out to identify potential threats on routine basis.
4. Complete website be **deployed on inland servers** including **database** and web infrastructure.
5. **HTTPS** protocol be used for communication between client and web server.
6. Application and database be installed on different machines with proper security hardening.
7. Sensitive data be stored in **encrypted** form with **no direct public access**.
8. Proper **security hardening of endpoints** and servers be performed and **no unnecessary ports** and applications be used.
9. Updated **Antivirus tools/ Firewalls** be used on both endpoints and servers to safeguard from potential threats.
10. Enforce a strong password usage policy.
11. Remote management services like **RDP and SSH must be disabled** in production environment.
12. Deploy **web application firewalls** for protection against web attacks.
13. Employ **secure coding practices** such as parameterized queries, proper input sanitization and validation to remove malicious scripts.
14. Keep system and network devices up to date.
15. **Log retention policy** must be devised for at least 3 x months on separate device, for attacker's reconnaissance.
16. **Reporting of Cyber Security Issues / Queries.** For reporting malware or any other query or issues regarding Cyber Security, details may please be forwarded to the following email addresses:-

"ntisb@cabinet.gov.pk "
