

Subject: Cyber Security Advisory – Critical Vulnerabilities in Apple Products (Advisory No. 11)

Recently, Apple has released security updates for zero-day vulnerabilities (CVE-2023-23520; CVE-2023-23530; CVE-2023-23531) that can be exploited by threat actors to gain unauthorized access of victim devices even without user's interaction; using zero-click malware/zero-day exploit. Affected products include: -

- a. iOS
- b. iPad
- c. MacOS Ventura

2. Users are advised to update their devices to newest version (or above) as mentioned in ensuing paras: -

- a. iOS – version 16.3.1
- b. iPad -- version 16.3.1
- c. MacOS Ventura – version 13.2.1

3. Kindly disseminate the above information to all concerned in your organizations, all attached/affiliated departments and ensure necessary protective measures.
