

**Subject: Cyber Security Advisory – Critical vulnerability in Apple Products
(Advisory No. 06)**

Recently, Apple has released security updates for zero-day vulnerabilities (CVE-2023-23529; CVE-2023-23514; CVE-2023522) that threat actors can exploit to gain unauthorized access of victim devices. Affected products include: -

- a. iOS
- b. MacOS Ventura
- c. iPad
- d. Safari products

2. Users are advised to update their devices to latest version as mentioned below: -

- a. iOS – version 16.3.1
- b. MacOS Ventura – version 13.2.1
- c. iPad – version 16.3.1
- d. Safari products – version 16.3.1

3. Kindly disseminate the above information to all concerned in your organizations, all attached/affiliated departments and ensure necessary protective measures.
