SUBJECT: CYBERSECURITY ADVISORY SOCIAL MEDIA ACCOUNT MANAGEMENT

In light of the prevailing security situation, all ministries and their attached departments are hereby directed to implement the following measures immediately to secure their official social media accounts:

1. **Reset Passwords:** All official social media account passwords must be reset immediately using strong and secure credentials. Two-Factor Authentication (2FA) must also be enabled without delay.
2. **Use of Official Email Accounts:** Only official, designated email addresses shall be used for registering and operating official social media handles. All personal emails must be replaced with official ones wherever applicable.
3. **Prohibit Use of Personal SIMs/Emails:** No official social media account shall be operated using personal SIM cards or personal email addresses under any circumstances.
4. **Use of Corporate SIMs:** Ministries and departments must obtain and use officially issued corporate SIMs for all social media accounts. Any existing personal SIMs currently associated with official accounts must be replaced immediately.

Strict compliance with these directives is mandatory. Failure to adhere will not only invite administrative action but may also significantly increase the risk of cybersecurity threats.
