7TH FLOOR, CUSTOM HOUSE
KARACHI

No. Misc/08/2005-III/444

Dated: 01 -06-2026

VALUATION RULING NO. 2086 /2026

- 1) This Ruling shall be applicable until the same is rescinded or revised in terms of sub-section (4) of Section 25A of the Customs Act, 1969.
- 2) The revision petition against this Valuation Ruling can be filed under Section 25D of the Customs Act, 1969, within 30 days before the Director General, Customs Valuation.

Subject: DETERMINATION OF CUSTOMS VALUES FOR TYRES & TUBES-I (PASSENGER CARS) UNDER SECTION 25A OF THE CUSTOMS ACT, 1969.

1.	Valuation Ruling	This ruling supersedes Valuation Ruling No. 1958/2025 dated 17.01.2025.
2.	Date of meetings with stakeholders	The final meeting with relevant stakeholders were conducted on 30.04.2026.

Background of the valuation issue: Earlier, the Customs values of Tyres & Tubes (Passenger Cars) of different types were determined under Section 25A of the Customs Act, 1969 vide Valuation Ruling No.1958/2025 dated 17.01.2025, which was challenged before the Director General, Customs Valuation under Section 25D of the Customs Act, 1969. The Director General, through Order-in-Revision No. 30/2025 dated 17.04.2025, remanded the matter to this Directorate for a fresh determination of customs values under Section 25A of the Customs Act, 1969. The remand was specifically directed toward a re-examination of the issues concerning origins and international price trends, requiring the Directorate to conduct a new valuation exercise in light of the observations made in the said order. Accordingly, the Directorate initiated exercise for redetermination of customs values of the items covered under the said valuation. Meeting notice to the relevant stakeholders was issued and extensive discussion consultation was carried out with the stakeholders.

2. **Stakeholders' participation in determination of Customs values:** During meeting M/s. Pakistan Tyre Importers and Dealers Association (PTIDA) contended that determined customs values are higher than prevailing international prices. They stated that Thai-origin tyres are priced similarly to Vietnamese origin tyres and requested revision of the valuation accordingly. The international price are much lower side, however, they also support to local industry, therefore, the determine value shall be in accordance with international trend to give level playing field to all stakeholders. They emphasized that valuation shall be based on proper market inquiry under the Customs Act, 1969, maintained that their declared values align with recent import trends without signs of under-invoicing, and requested exclusion of irrelevant or non-imported tyre sizes from the valuation ruling to prevent misapplication. The representative of local manufacturer of M/s. Service Long March Tyres (Pvt.) Ltd. argued that the determined value is fair, therefore, the determined customs values shall be maintained. They also suggested that market inquiry is not accurate method for determination of customs value of tyres because smuggled tyres are also present in the market, therefore, it shall be based on actual prices of tyres price in exported countries.

3. **Analysis / Exercise done to determine Customs Values:** The viewpoints of all stakeholders were carefully analyzed, and a detailed examination of import data for the preceding ninety (90) days was conducted in conjunction with a review of the documentary evidence submitted by both the importers and local manufacturers. This comprehensive assessment facilitated the development of a supplier-wise database, incorporating transaction values along with detailed specifications of the goods imported into Pakistan. Furthermore, international manufacturers were also approached to verify the prevailing global prices of the subject items. Subsequently, a market inquiry was conducted and examined in the light of this Directorate's Office Order No. 17/2014 dated 19.03.2014 and in terms of Section 25(7) of the Customs Act, 1969, to ensure transparency and accuracy in the determination of customs values.

4. **Method(s) adopted to determine Customs values:** Valuation methods specified in Section 25 of the Customs Act, 1969, were duly applied in sequential order to arrive at the Customs values of subject goods. The transaction value method as provided in sub-Section (1) of Section 25 of the Customs Act, 1969, was found inapplicable due to wide variation of values in import data. Moreover, the requisite information under law was not available to arrive at correct/transaction value. Therefore, identical/similar goods value methods provided in Sections 25(5) & (6) ibid were examined for applicability to determine Customs values of subject goods. The data provided some references; however, it was found that the same could not be solely relied upon due to absence of absolute demonstrable evidence of quantities and qualities, variation in declaration and specifications. In line with statutory sequential order of Section 25 of the Customs Act, 1969, this Directorate conducted market survey under sub-Section (7) of Section 25 of the Customs Act, 1969. Various Wholesale and Retail Markets were visited to observe the actual prices of Tyres and Tubes. Furthermore, international manufacturers were also approached to verify the prevailing global prices of the subject items as proposed by the importer and local manufacturer. On the basis of available data / information collected and exercise conducted the values of Tyres and Tubes for Passenger Cars have been determined under sub-section (9) read with sub-section (6) & (7) of Section 25 of the Customs Act, 1969. This comprehensive evaluation ensures that the determination of customs values is fair, transparent, and fully compliant with the law.

5. **Customs values of Tyres and Tubes-I (Passenger Cars),** hereinafter specified, shall be assessed to duty/taxes at the Customs values as per attached **Annex-A**, comprising pages 01 to 04, which forms an integral part of this Valuation Ruling along with the following condition:

- Note:**
- a) If a Radial Tyre is imported which is not covered in this Ruling and whose specifications are similar to normal Tyre except for being Radial, such Tyres may be assessed at 12% higher value than that of the normal Tyre.
 - b) Where only Tyres are imported other than tubeless, depreciation of 6% shall be allocated on ruling value. Conversely, if tube of a tyre specified in the ruling is imported, the values shall be assessed at 6% of the Tyre value. This is applicable to only those tube sizes which are not mentioned in the valuation ruling.
 - c) Values of the Tyres with different "Ply" shall be assessed by adding or subtracting from the determined value @ 1% per two Ply rating.
 - d) Discount of 5% is admissible for import of Tyres and Tubes through land route on C&F value determined by this Directorate.
 - e) If Tyres and Tubes having specifications other than those mentioned in the valuation ruling are imported, the Collectorates may assess the goods under Section 25A of the Customs Act, 1969 or may refer the case to this Directorate General of Customs Valuation, Karachi for suitable advice.

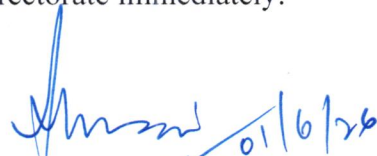

- f) Tyres brand originating at USA, Europe & Japan and same also manufactured in other origins, shall be assessed under the category of 'International Brand'.

6. In cases, where transactional values or values in invoice retrieved from the consignment, as the case may be, are higher than the customs values determined in this valuation ruling, the assessment shall be made on higher values in terms of sub-section (1) of Section 25 of the Customs Act, 1969.

7. In case of consignments imported by air, the difference between air freight and sea freight shall be added for the assessment of value.

8. The Valuation Ruling shall be applicable for the descriptions and specifications of goods as mentioned in the aforementioned table. HS Codes are mentioned for illustrative purposes.

9. The Collectorates of Customs shall ensure the implementation of Valuation Ruling and in case of any anomaly may be brought to the notice of this Directorate immediately.

(Azhar Husain Merchant)
Director
